Clean and Bright for (Interiors and Exteriors)

Combining the best of Venger's re-skin and No VOC paint program - this unique product offering is customizable to the precise needs of each lineup at a retail outlet.

Replace the parts that need replacing, paint the parts that are salvageable and realize the greatest return on your investment dollars.

Highly durable and long lasting, the Clean and Bright program delivers the highest number of long term repeat customers of all Venger's offerings

Exteriors part options

- Canopy
- Sill / Hand Rail
- Tank
- Bumper
- Toe kick

Interior part options

- Racks
- Pans
- Honeycomb
- Rear and top panels
- Air Return Grills

Venger Impression Full Reskin Kits

Benefits to you the customer:

- Provides the look of a full replacement without the inconvenience and cost
- Both exterior and interior skins are available
- Work is performed onsite and overnight
- No loss of sales and no downtime during re-skin
- The process does not affect engineered airflow or maintenance
- The re skinning is customized to your specific needs
- Refrigeration systems remain intact while skinning
- No need to remove merchandise from the cases prior to re-skinning (exteriors only)
- Durable, scratch and dent resistant materials and finishes

Produce Wet Rack Refurbishment Rollouts

Your store cases do not age at the same rate. Due to the 24/7 moisture of misting systems, the produce wet rack finish deteriorates far quicker than the rest of the refrigerated fixtures. One of Venger's specialties is large scale rollouts of produce wet racks over many locations and vast geography. This gives a high traffic department of your store the physical lift in appearance it needs to match the standard in the rest of the store.
